

VERDICT DFIR Analyst Report

VERDICT Analyst Report

Case ID: case_001

Report purpose: professional writeup for final examiner review

Review state: human approval required before external reliance

Executive Assessment

Final case status: EVIL_FOUND

Assessment: Evidence consistent with rundll32 LOLBin execution: PowerShell transcript invocation is corroborated by Prefetch listing evidence.

Scope note: this writeup summarizes the case ledger and cited evidence.

Human Review Checklist

- [] Every claim has a CIT-#### citation.
- [] Evidence hashes match the case manifest.
- [] Key Findings match the cited ledger evidence cards.
- [] Caveats are acknowledged before approving findings.

Key Findings

- CIT-0009 case_001:lolbin:rundll32

Status: CONTESTED; case status: EVIL_FOUND

MITRE: T1218.011

Artifact classes: powershell_transcript, prefetch

Caveats: PREFETCH_SSD_DISABLED

Rationale: Evidence consistent with rundll32 LOLBin execution: PowerShell transcript invocation is corroborated by Prefetch listing evidence.

Note: finding-level verifier state differs from the case-level conclusion; human review must resolve this before approval.
