

VERDICT DFIR Analyst Report

VERDICT Analyst Report

Case ID: case_003

Report purpose: professional writeup for final examiner review

Review state: human approval required before external reliance

Executive Assessment

Final case status: EVIL_FOUND

Assessment: Evidence is consistent with hidden process activity: psscan PID(s) absent from pslist: 7132, 9936, 10368, 11936.

Scope note: this writeup summarizes the latest case run. Earlier failed or unverifiable attempts are preserved in Superseded Run History and chain of custody.

Human Review Checklist

- [] Every claim has a CIT-#### citation.
- [] Evidence hashes match the case manifest.
- [] Key Findings match the cited ledger evidence cards.
- [] Caveats are acknowledged before approving findings.

Key Findings

- No separate finding entries were emitted in the latest run.
- Case-level conclusion: EVIL_FOUND; see Latest run evidence citations below.

Superseded Run History

Latest run evidence is authoritative for the executive assessment above.

- CIT-0017 2026-05-09T19:50:38.228020Z status=UNVERIFIABLE; vol3.windows.info exited with code 1; VERDICT cannot support a case-level finding from incomplete tool output.

Ledger Evidence Appendix

The cards below are concise ledger-derived evidence figures. Raw tool output paths and hashes remain available in the case output directory and JSONL ledger.
