

VERDICT DFIR Analyst Report

VERDICT Analyst Report

Case ID: case_002

Report purpose: professional writeup for final examiner review

Review state: human approval required before external reliance

Executive Assessment

Final case status: EVIL_FOUND

Assessment: Evidence is consistent with hidden process activity: psscan PID(s) absent from pslist: 4, 80, 312, 340, 384, 428, 500, 508, 516, 520, 576, 644 (110 additional PIDs omitted)

Scope note: this writeup summarizes the latest case run. Earlier failed or unverifiable attempts are preserved in Superseded Run History and chain of custody.

Human Review Checklist

- [] Every claim has a CIT-#### citation.
- [] Evidence hashes match the case manifest.
- [] Key Findings match the cited ledger evidence cards.
- [] Caveats are acknowledged before approving findings.

Key Findings

- No separate finding entries were emitted in the latest run.
- Case-level conclusion: EVIL_FOUND; see Latest run evidence citations below.

Superseded Run History

Latest run evidence is authoritative for the executive assessment above.

- CIT-0017 2026-05-09T19:40:01.976018Z status=UNVERIFIABLE; vol3.windows.info exited with code 1; VERDICT cannot support a case-level finding from incomplete tool output.
- CIT-0035 2026-05-09T20:35:11.378920Z status=UNVERIFIABLE; Parser produced no structured artifacts for required tool(s): vol3.windows.pslist.

Ledger Evidence Appendix

The cards below are concise ledger-derived evidence figures. Raw tool output paths and hashes remain available in the case output directory and JSONL ledger.
